Subject: RE: Technical and H/S Meeting for Subsurface Coring at Portland Harbor

Hi Jennifer and Ken,
Can you send us the call in number/webex invite for this meeting?

Thanks,

Howard S. Young, LG | CDM Smith
14432 SE Eastgate Way, Suite 100 | Bellevue, WA 98007-6493
T: 425.519.8300 | Direct 425.519.8351 | Cell 206.491.4663 | younghs@cdmsmith.com | www.cdmsmith.com

Subject: Technical and H/S Meeting for Subsurface Coring at Portland Harbor
When: Tuesday, July 17, 2018 1:30 PM-4:00 PM (UTC-08:00) Pacific Time (US & Canada).
Where: AECOM Warehouse: 1115 SE Caruthers Street, Portland, OR

July 9 update: I am extending this meeting to 4 pm. The second half of the meeting will be to review technical aspects of the coring program.

I am sending a meeting invitation on behalf of Fred Merrill, AECOM Health and Safety lead, for a Health and Safety Briefing related to Subsurface Sediment Sampling and Core Processing. This will be geared specifically towards hazards associated with the on-board coring work, and processing cores in the AECOM warehouse. I do not anticipate that we will revisit all the aspects of onboard work, just those things which are unique to coring.

This is a suggested date/time:
Tuesday July 17th, 1:30 to 3:00 pm

Location: AECOM Warehouse, 1115 SE Caruthers Street, Portland, OR.

PLEASE NOTE: (b) (6). Nicky Moody and Jennifer Ray will be your AECOM point of contact for scheduling/logistics if this meeting needs to be adjusted, or a WebEx needs to be added.

Anne/Keith: Please forward to Geosyntec staff who will be working in the warehouse or on the boats.

Thanks-

Jenny
